

Social Thinking Virtual Summer Camps

July 20-24, 2020
August 17-21, 2020
Ages 8-10

You are a social detective! Join us for a week of social thinking inspired stories, games, and crafts. Work in a team of 3-4 peers to complete secret missions and develop your social smarts!

- Based on the *Social Thinking Methodology*, a set of evidence-based strategies (designed by Michelle Garcia Winner) to help children improve social thinking competencies so they can better understand and respond to social interactions. These social competencies are important building blocks for establishing and maintaining friendships, having effective conversations, and academic success.
- *Social Thinking Methodology* is based on language and “thinking about thinking” (metacognition). Children will use language to learn social thinking vocabulary and concepts that will help them work in the social world.

Camps will be led by a Communicative Disorders Assistant and supervised by a Speech-Language Pathologist. Participants will receive a total of 8.5 hours of direct speech/language intervention.

- Speech/language intervention is covered by most extended health benefits. An itemized receipt will be provided (upon completion of the camp) that may be submitted to insurance.

Camp fee: \$425.00 per child

Includes (8.5 hours total):

- 1 hour *Social Thinking Dynamic Assessment* (plus summary report)
- 7.5 hours of direct speech/language therapy

Camp hours:

10:00 to 11:30 AM
(Monday to Friday,
of selected week)
